PERMIT NO. 8

Dear Residents,

It has been a long year with many challenges for us all. As we all have been dealing with COVID-19, the Board also continues to address many improvements within our Village. One major and immediate concern is the Concourse East Bulkhead. This bulkhead is failing in various locations and the repair is listed as a priority project on our long-term infrastructure plan. We anticipated having one more season before the start of this project but due to rapidly deteriorating conditions, the Village Board is being forced to put this out to bid sooner than expected.

Approximately 1400 linear feet of bulkhead is in need of replacement with an estimated cost of \$1.3 million. In order to accomplish this financially, we are looking to go to bond for this project. Due to the deterioration in many locations it would not be cost effective to replace sections at a time. To help offset the costs for this bond our Boating Fees will need to be increased.

We are encouraging residents to please join us for our January 4th Village Board Meeting being held via Zoom to become more informed with the process of this project. Residents will be able to participate with live questions to our Bonding Representative on Zoom or call in. Zoom Meeting information and call in number can be found on the reverse side of this flyer.

Thank you for your continued involvement and interest in your Village.

Wishing you a Happy and Healthy New Year!

Sincerely,

Mayor John Valdini, Deputy Mayor Thomas Zepf,
Trustee Michael Dopsovic, Trustee Patrick Fawcett & Trustee Mary Del Vecchio
